ANNOUNCEMENTS

The President indicated that he had received a letter from the speaker of Senate, and in response, gave a commitment, on behalf of his administrative team, to recognize and follow existing Senate policies and to respect a consultative process. He stated that this has been the approach he has adopted throughout his academic career. To date, he has had extended discussions with Department Chairs and is looking forward to meeting with all departments over the next 6-7 weeks. He stated that it was important for Nipissing University, as a community, to move forward. He emphasized that Nipissing is at a critical point in its evolution as a university, with many positives that can be built upon. For instance, NU has doubled its first-year enrolment and has good prospects for another successful enrolment cycle, has a committed group of faculty and staff, two satellite campuses with excellent potential, a growing and successful research environment, a vibrant strategic planning process currently underway, a strong Board of Governors, a supportive community and great students many of whom were celebrated that day as mentors, dons, and leadership award winners. Nipissing has a lot of which to be proud and has many ingredients for success. It remains incumbent upon everyone to work together to achieve our potential. Many of our values must be maintained. The President stressed his commitment to fight for “the student experience” because students choose NU for its size and personal service. As President, Senator Mock stated that he wants a collegial environment without bickering or animosity with the administration or faculty. He noted that he has already met with the Senate Speaker and Chairs and has asked the chairs for access to their departments. He expressed his appreciation to the chairs for facilitating these meetings. Having been around universities for a long time, the President stated that he is keenly aware of the unique environment that Nipissing has and the many personal touch assets that are strengths of our university. He announced to Senate that he fully accepts the challenge and responsibility to work with everyone to move this university forward.

Senator Mock announced that the Board of Governors had approved the budget at its April meeting. The President presented some background to senators regarding the opposition of Cedar Heights residents to the proposed construction of a new student residence at the northeast corner of the property. The issue of off-campus housing is a real challenge for Nipissing. The President also reported on the AUCC conference held in British Columbia in late March. The government made a decision to close the University College of Okanagan; the college portion will revert to a college and the university will become a campus of UBC. Postsecondary education in BC is at the forefront of the government’s agenda. The federal budget has indicated increased support for research, for student assistance and for promoting internationalization and student exchanges. The President extended an invitation to everyone to attend the Dave Marshall Leadership Awards ceremony to be held following the Senate meeting.

Senator Hawkins announced that three of Nipissing’s five SSHRC applications were successful and awarded to Dr. Boterbloem, Dr. Graff and Dr. Noël. NSERC applications were approved for Drs.
Karassev and Tuncali and Dr. Pyle received a CFI grant. This is outstanding news for Nipissing University and great for students who work with the faculty involved.

Senator Hawkins expressed the desire to help faculty who had applied, but had not received grants. They were encouraged to reapply. The Vice-President reminded senators that broad based consultation is being sought with regard to the proposed transformation of SSHRC from a granting council to a knowledge council. Senators were encouraged to provide input specifically to pages 14-19 of the previously circulated SSHRC booklet. It was also announced that, in conjunction with the research luncheons, a videotaped interview with Marc Renaud will be being added to the series.

The Dean of Arts and Science congratulated faculty for their hard work during the past academic year. He stated that a decision had been made to split the Arts and Science Convocation into two ceremonies, divided by discipline, as a result of the recent growth in students and the number of guests expected at the graduation ceremonies.

Senator Common circulated a document for senators’ information entitled “10 Year Goal: Double Graduate Enrolment at Ontario Universities.”

Roberto Molica-Lazzaro reported that voting had occurred on Wednesday and Thursday to complete the process for choosing a valedictorian. He announced that all departments will be asked for input concerning the 2004-2005 student handbook. NUSU is in the process of introducing two new part-time scholarships. Mr. Molica-Lazzaro stated that an appreciation social had been organized to honour the volunteers who had helped with NUSU’s success.

The Speaker reminded Senate committee chairs that annual reports are due at the May Senate meeting. Annual reports must include a summary of the yearly attendance.
