CORRESPONDENCE

A card was received from Christine Jenkins upon her retirement thanking the Board for the support she received this past year while taking on the role of University Secretary.

PRESENTATION

Dominic Belmonte from Price Waterhouse Cooper (PWC) presented a synopsis of the paper presented to the Ministry.

Dean Decaire from BDO presented the audited financial statements for the year ended April 30, 2015. The statements were prepared by the university and Mr. Decaire explained that his role was to review and comment on the audit, and present his opinion. He indicated that there were a lot of positives going forward. Hard decisions were made and there are no red flags in this report. He advised that he is not the bearer of bad news, and that he was impressed with the accounting impact. The university needed to act and the results prove that the Board works well together. Our long term debt is smaller than some other universities.

CHAIR’S REMARKS

The Board Chair began her remarks by reminding Board members of the rules of confidentiality; this especially pertains to closed sessions discussion, and to be mindful of any possible conflicts of interest. A Board member’s role is to ensure that the Board acts in the best interest of and does the right things for the University’s future, not their own personal agendas. The President is responsible for managing the Executive Team and day to day operations of the University. Board members bring a lot of wisdom and expertise to the Board table. The Board Chair encouraged Board members to be open and engaged and ask questions.

Board members were reminded of the Board Retreat scheduled for October 23rd and 24th and encouraged to attend. An agenda will be sent out shortly. We are off to a good start, and need to look strategically ahead. We will be facing a lot of challenges but likewise there are also a lot of opportunities ahead.
PRESIDENT'S REMARKS

The President welcomed everyone back for the new academic year. He commented on the recent Ontario Universities' Fair which was held September 25-27. A new attendance record was set this year with 135,000 attendees. Thanks to those who participated.

At the September 30th meeting of the Council of Ontario Universities (COU), Executive Heads attended a presentation from the Premier. The focus of the Premier's remarks was on the labour market and what universities do to prepare a person to enter into the work force and the job market. Results of a public publications survey on the perceived value of a college education versus a university education were discussed.

Sheldon Levy, President and Vice-Chancellor of Ryerson University, will become the next Deputy Minister of the Ministry of Training, Colleges and Universities (MTCU). His appointment will begin December 1st. It is good to know that we now have a friend and colleague at Queen's Park.

The upcoming Board Retreat will be focusing on fundraising and development. We will be developing a case for the University. We need to identify the top three priorities and fundamentally understand what fundraising will be for this institution. We need to find out what our needs are. Development for the future is important.

VICE-PRESIDENTS' REMARKS

Provost Vice-President Academic and Research

Dr. d'Entremont advised that the 2016-17 budget process will be starting shortly. Last year we asked for budget submissions to be handed in by November 15th. We hope to have the total ask ready for the next Board meeting in December.

QUESTION PERIOD

Janet Zimbalatti asked for an update on the status of the search for our new Chancellor. The President responded by advising that a meeting was scheduled for next week to discuss progress on the search.

Dr. Gendron remarked that the PWC audit identified that the recruitment of international students has been identified as a potential area of growth for the university. Do we have any plans in this area? The President advised that a strategy has been developed through HESA and we are waiting for the final report. Dr. d'Entremont and Dr. Rich have attended meetings regarding the possible recruitment of students from China, and we also in discussions with India. Once the HESA report is available it will be distributed.

Dr. Gendron asked if a dissemination of the PWC report would be distributed to the broader university community. The President advised that the Assistant VP Finance and Human Resources has plans to hold Town Hall meetings and that this has been announced to the unions. Everyone will have the opportunity to ask questions.

ENROLMENT UPDATE

Jamie Graham, Registrar and Assistant VP of Institutional Planning provided an enrolment and budget report to date. Comparing the number of registered students to the numbers on which the budget was projected, Mr. Graham advised that the estimates were very close. As a result, we should be on budget for grant and tuition numbers.
