

### Unauthorized Use of Digital Recordings

It is essential to Nipissing University that every possible step is taken to protect the privacy of individuals, including staff, faculty, students and any organization associated with the University.

During the course of your time at Nipissing University, you may have the opportunity to digitally audio/video record and/or take photos during classes or other educational activities. It is necessary to gain the permission of an individual or group before taking a picture or audio/video recording of anyone, and before circulating that image/file or transmitting it electronically. In any situation in which it is not acceptable to take a picture or to make an audio/video recording, it is also not acceptable to publish that picture or video/audio recording. Transmission of pictures or video/audio recordings on the internet constitutes publication.

If you are suspected of publishing any unauthorized digital recordings and/or photos, you may be in violation of the Code of Student Rights and Responsibilities, as well as the harassment policy, and will be notified. If it is found that you are responsible for, or have contributed to the publication of such material, you will be held accountable. The University reserves the right to terminate, at any time, its relationship with any student whose behavior is deemed to be detrimental to the purposes and goals of the University.
