

If you are traveling outside Canada, please see the Travel Package options below. There are different package options depending on the location you will be visiting, so make sure you are looking at the correct Zone. Please also note that the Travel Package options available to Nipissing University users are different than those available to users on a personal account, so please do not confuse them with advertisements you may have seen elsewhere.

IMPORTANT NOTE: Travel Packages are available to employees for work related OR personal trips. If you are travelling for personal reasons, you will be notified of the amount owed and you can reimburse the University by paying at Finance. You will also be required to bring your receipt to FASS as proof of payment.

Brief Description of Package Types

Flex Plan – Flex Plans charge users based on tiered usage. If you do not use a service, you will not be charged. If you use a service, even a minimal amount, you will be charged the entire amount for the tier that you qualify for. If you exceed the amounts set out in the tiers, you will be charged overages fees. Flex plans follow the same billing cycle as the Nipissing University account (start to end of each month), so if your trip spans into a new month, your Flex Plan tiers will reset and you may incur the charges again, depending on usage.

30-Day Plan – 30-Day Plans include a set amount of services for a set fee and are active for a full 30 days, regardless of where your trip falls in the billing cycle. You will be charged this fee whether you use the services in their entirety or not. You will be subject to overage fees if you exceed the allotted amount of services in the package. Note that in some Zones, we are restricted to only a small amount of data. In order to avoid steep overage fees, ensure you are aware of your data allowance and monitor your usage accordingly.

Email FASS at telephones@nipissingu.ca a few weeks before your departure with the location and dates of your trip. Specify which package you would like applied to your device and FASS will then arrange with Bell Mobility for the package to be added for the dates required. If you have any questions concerning the Travel Package options, please contact FASS for clarification. Note that if you do not apply a Travel Package to your device, you will be responsible for paying any roaming fees incurred.

US Travel Packages
