

## MASTER OF SCIENCE IN KINESIOLOGY SUPPLEMENTAL APPLICATION INSTRUCTIONS

The Master of Science in Kinesiology (MSc Kin) is a thesis-based degree program that offers students an opportunity to train in a world-class facility with state-of-the-art equipment and leading faculty researchers. It is offered as both a two-year full-time program and on a flex-time basis (max 4 years).

Students will conduct research in an area broadly related to the study of health and physical activity, such as biomechanics and ergonomics, exercise and environmental physiology, sensory-movement behaviour, physical activity and health promotion, coaching, sport and performance psychology, and sport management. Graduate students are drawn to the School of Physical and Health Education to work with the specific faculty members in the MSc Kin program and benefit from their expertise in specific content areas.

The MSc Kin program operates using a mentor model. The benefits of a mentor model are numerous, including clarification of research and other funding support at the time of application and focused supervision from the time of registration. The MSc Kin program prepares graduates for further research training (e.g., doctoral and post-doctoral studies) and a broad range of careers in Kinesiology and related fields, such as medicine, public health, rehabilitation, occupational health and safety, sport, fitness, education, government, and industry.
