Consistent with the Ontario Human Rights Commission, Nipissing University does not require you to disclose your diagnosis in order to register with Student Accessibility Services (SAS) and to receive academic accommodation. Although not required, a diagnosis is used by a relevantly trained disability service professional in Student Accessibility Services to infer and anticipate barriers and accommodation needs in an academic setting, where relevant information is not otherwise available.

Providing your diagnosis may be required to establish eligibility for certain federally or provincially funded bursaries and grants and privately-funded external scholarships and financial awards. This form can be used to establish eligibility for such financial assistance, provided you have consented to the disclosure of your diagnosis.

If you decide to disclose your diagnosis, please note that this information will kept strictly confidential. Student Accessibility Services will not share this information with anyone, including your instructors, without your explicit and written consent.

If you choose to consent to the disclosure of your diagnosis, you must check the box below. Your consent will allow your health care practitioner to complete the relevant section of the form.

I consent to disclose the diagnosis of my disability.

**MEDICAL DOCUMENTATION FORM
FOR PHYSICAL, SENSORY, and MEDICAL DISABILITIES**

Student Name: _____ Date of Birth: ____/____/____ (mm/dd/yyyy)

Dear Healthcare Practitioner,

This student is requesting disability-related supports and accommodations while studying at Nipissing University. The student is required to provide the University with documentation that is:

- A. Completed by a **regulated healthcare professional who has knowledge of the patient’s history and is licensed to diagnose the disability.**
- B. All sections of the form must be completed fully and objectively to ensure **accurate assessment of the student’s disability-related needs**, which may have significant implications on access to support services and academic accommodations in university, or entitlement to a range of benefits including government funding.
- C. Careful consideration should be given to the **statement of disability and relevant functional limitations**. Please note, a diagnosis is requested but not required for students to receive academic accommodations; however, if diagnosis is not provided, functional limitations must be fully described and additional information may be requested in order to determine appropriate accommodation and support. **We rely on your detailed knowledge of this student’s disability and functional limitations to assist in the planning of appropriate accommodations through Student Accessibility Services.**

In my professional opinion, I can confirm the student has a formally diagnosed disability, as follows:

- Permanent disability** with ongoing symptoms:
 - Chronic (ongoing symptoms for the duration of natural life)
 - Acute (recurring episodes with relatively symptom-free periods of remission)
- Temporary disability** with anticipated duration of: _____
- This student must be reassessed every _____ due to the changing nature of the illness, or requires follow up for monitoring.

Restrictions and Limitations

As this certificate covers the impact of various disabilities, there are questions that may not be relevant to your patient. Check only the areas that apply.

Where noted, please indicate the severity of the disability and the **functional impact in an academic environment.**

Mild: The student should be able to cope with minimal support.

Moderate: The student requires some degree of academic accommodations, as symptoms are more prominent.

Severe: The student has a high degree of impairment, with significant academic accommodations required, as symptoms impact and interferes with academic functioning.
