A. Purpose

The purpose of this policy is to establish rules regarding the reimbursement of expenditures incurred while travelling on Nipissing University business in order to comply with the [Expenses Directive issued by the Management Board of Cabinet on April 1, 2011](#), under the authority of the *Broader Public Sector Accountability Act, 2010* (Part IV – Expense Claims: Allowable Expenses). The Directive was issued in order to raise the level of accountability and transparency for designated broader public sector (BPS) organizations, contributing to greater alignment with the high standards expected in ministries and agencies of the Government of Ontario.

B. Scope

This policy applies to all individuals making an expense claim to the University, including appointees, board members, elected officials, employees and consultants and contractors engaged by the organization, providing consulting or other services. This policy is applicable to all travel related expenditures indicated in this policy that are chargeable to the University's operating budgets, ancillary operations, research, trust and any other accounts or projects administered by the University.

C. General

1. It is recognized that employees may be required to travel from time to time on University related business. In accordance with the Broader Public Sector Expenses Directive and this policy, the University will reimburse faculty, staff, and other individuals for reasonable travel expenses associated with the various operations of the University.
2. Pre-approval must be received prior to making any travel arrangements. Employees must submit travel requests through Romeo or the leave entry tracking system in WebAdvisor.

Travel Expense Policy

3. It is the responsibility of individuals with approval authority to ensure that employees whose expenses are to be charged to one of their accounts are familiar with the University's Travel Expense Policy prior to travelling. Pre-trip authorization will ensure that health and safety and other insurance coverage are maintained while the employee is travelling.
4. Only expenses related to the University business are covered by this policy and expenses of a personal nature will not be reimbursed. Some examples of common ineligible expenses include personal entertainment, sight-seeing and side trips. Expenses for a spouse or other individual accompanying the employee will not be reimbursed.
5. A Nipissing University issued P-Card is the required method of payment. Itemized receipts along with your pre-approval form should be included with your P-Card Reconciliation submission.
6. If personal monies must be used, the University will reimburse employees upon submission of a Statement of Expense Form, authorized by a Vice-President. Statement of Expense Form for mileage can be approved by a supervisor.
7. Employees must ensure that the most economical method of transportation is used when travelling and should take into consideration factors such as costs, time constraints, itinerary, etc. Employees can use the "Travel Rental/Own Vehicle Comparison" tool on WebAdvisor to help with this determination. Employees are encouraged to consider tele/video/web conferencing where possible.
8. Where sponsors or funding agencies have their own travel expense policies and do not refer to the University's internal policies, the policies of these bodies will have precedence over the University's policies provided that the University has agreed to this arrangement in advance. If sponsors or funding agencies do not have specific travel expense policies or if certain matters are not included in their policies, then Nipissing University's Travel Expense Policy will prevail.
9. Employees must understand the external guidelines that must be followed prior to approving travel expenses funded by external agencies. Employees should review the agency's policy guide book or terms of contract and contact the Director, Finance or the Vice-President, Finance and Administration for clarity when uncertainty surrounding the policy exists.
10. Where all or a portion of travel expenses are to be paid by a third party, the employee or his/her supervisor should provide appropriate details to the Finance Office – Accounts Receivable who will prepare and forward a University invoice to the funding agency.

D. Definitions

"Employee(s)" refers to any person, including volunteers, agents, appointees, board members, faculty, staff and organizations, eligible for reimbursement under this policy.
