# Hands-On Learning

Experiential learning provides students with hands-on learning experiences and results in uniquely employable graduates who are not only ready for the workforce, but ready to lead.

## Experiential Learning for Arts and Science (ELAS)

ELAS is an exclusive project between Student Development and Services, the North Bay & District Chamber of Commerce and the Faculty of Arts and Science that focuses on providing students with hands-on learning experiences. With a strong emphasis on learning competencies, ELAS offers students enriched learning opportunities that focus on the development of professional skills resulting in confident, successful and highly employable graduates ready for the workforce.

## Co-ops, Placements, and Internships

Experiential learning opportunities in many cases are built right into the curriculum as placements and directly engage students in a wide variety of practical, hands-on experiences outside the classroom. Multiple programs offer volunteer learn-by-doing opportunities that develop competencies in communication, critical thinking, collaboration, problem solving and leadership through integrated course-work placements, professional internships, co-ops and practicums.

## Biidaaban Community Service-Learning (BCSL)

Biidaaban Community Service-Learning (BCSL) is a unique experiential learning program that allows students to volunteer within community organizations. Students may support not-for-profit organizations for course credit through project-based learning or through placements. They can also support Indigenous children and youth through the Biidaaban Youth Group and Biidaaban Academic Support programs. Participants receive training from Elders, Indigenous knowledge holders, faculty, educators and community members prior to their placements. Biidaaban is an Anishnaabe word meaning “the point at which the light touches the earth at the break of dawn.”

## iLEAD Business Experience Certificate & Expeditions

The successful completion of the iLEAD Business Experience Certificate is verification that students have taken advantage of the opportunity to learn through experience, action and discovery. The certificate is earned through successful completion of 15 specific Business credits. As students earn credits toward their degree, courses offer practical, hands-on experience through directed study, workplace internships, overseas study and volunteer service to others.
