PART A: EDI Action Plan - Reporting on Key Objectives Analyses, Systemic Barriers, Objectives and Indicators

In developing their action plans, institutions were required to conduct: 1) an employment systems review; 2) a comparative review; and 3) an environmental scan (see program requirements [here](#)). These assessments were required in order to identify the specific systemic barriers and/or challenges that are faced by underrepresented groups (e.g. women, persons with disabilities, Indigenous peoples and racialized minorities at the respective institution; institutions were then required to develop key S.M.A.R.T. (specific, measurable, aligned with the wanted outcome, realistic and timely) objectives and actions to address them.

Indicate what your institution's key EDI objectives are (up to six) as outlined in the most recent version of your action plan (either the one approved by TIPS or the one current under review by TIPS), as well as the systemic barriers/challenges identified that these objectives must address. Please note that objectives should be S.M.A.R.T. and include a measurement strategy. List the corresponding actions and indicators (as indicated in your institutional EDI action plan) for each objective, and outline: a) what progress has been made during the reporting period; b) what actions were undertaken; c) the data gathered; and d) indicators used to assess the outcomes and impacts of the actions. Please note that indicators can be both quantitative and qualitative and should be specific. Outline next steps and use the contextual information box to provide any additional information (e.g. course correction, obstacles, lessons learned, etc.) for each objective.

Objectives associated with your institution's EDI Stipend application

Table C1. Provide information on the objectives associated with your institution's EDI Stipend application, including the funding and timelines, for the reporting period.

EDI Stipend Objective 1

Indicate the S.M.A.R.T. (specific, measurable, aligned with the wanted outcome, realistic and timely) objective(s) towards which this funding has been directed:

EDI Objective 1 - Salary for the HRG (EDI Representative). The events and conversations that have transpired around the globe over the past year have highlighted the many ways in which systemic barriers and inequity exist within our society, our systems and our organizations. At Nipissing University, we recognize the importance of acknowledging our shortcomings in the area of equity, diversity and inclusion and more importantly, our responsibility to take concrete action in order to create a respectful, diverse and inclusive culture where our students, staff and faculty can thrive. As a next step in our commitment to taking action on eliminating systemic barriers to inclusion, Nipissing University has focused a lot of our focus into this area. In order to properly identify and remove implicit and explicit systematic EDI barriers, and address unconscious bias in the recruitment, selection, and retention of leading scholars who will enrich the academic and research culture of the university, Nipissing University must begin with EDI oversight by hiring an EDI Officer. The funding provided by the CRCP and EDI stipend has been directed towards the salary of an EDI officer as the University was able to hire an additional full-time administrative staff member whose role and responsibilities involve 50% EDI related work. The primary focus of this role right now is to enforce the CRC management plan, the CRCP best practices guide and use this as a benchmark for all full-time faculty hiring moving forward.

Indicator(s): Describe indicators, as presented in the EDI Stipend application, and how they are calculated.

The Nipissing University EDI Action Plan is still a work in progress. In the meantime we have created a working document for internal use called the NU CRC Management Plan. Nipissing University has held internal dialogues to spark conversations about barriers that exist within our own institution and how we can be a more inclusive university. As indicated in the initial grant application we have shared and implemented many of these CRCP, and other EDI targets within our faculty recruitment, hiring and retention practices to embed accountability in the decision making processes. Sharing the EDI objectives and the CRCP best practices recruitment, retention and hiring guide into our regular faculty hiring processes has ensured that we are being equitable throughout all faculty hiring processes.

Progress: Describe results observed, including indicator results, outcomes, impacts. Include timelines (start and end dates).

The Human Resources Generalist began to have a focus on equity, diversity and inclusion within their role beginning in September 2020. Since that time there has been one active CRC faculty search and three other active faculty search committees that have used the CRCP best practices guide. The HRG has sat on all on these hiring committees as an HR/EDI representative and to ensure a fair and equitable process. Prior to May 2020, there was no HR/EDI representative that sat on faculty search committees.

This partnership will provide unlimited access to live and interactive webinars for all staff, faculty and students to provide further training and professional development opportunities. Part D: Engagement with individuals from underrepresented groups

For example, how was feedback gathered on whether the measures being implemented are resulting in a more inclusive research environment for chairholders of underrepresented groups? How has intersectionality been considered in developing and implementing the plan (if applicable)? Have new gaps been identified? How will members of underrepresented groups continue to be engaged? (limit: 10 200 characters)

Over the past number of months, Nipissing has held internal dialogues to spark conversations about barriers that exist within our own institution and how we can be a more inclusive university. As a next step in our commitment to taking action on eliminating systemic barriers to inclusion, Nipissing University is seeking a consultant to conduct a university-wide equity and stakeholder audit. This audit will form the foundation for a more thorough consultation process and development of a detailed action plan. These conversations have also provided the institutions with new ideas of how to move forward and the President wants to spearhead a committee or EDI working group later this month. This will allow for all departments and groups to participate in the decision making process moving forward and will ensure we include a representative from all underrepresented groups.
