Adaptive Technology - Tips and Tools

General Adaptive Technology Tools and Resources for Students
Adaptive Technology is:

Any item, piece of equipment, or software that is used to increase, maintain, or improve the functional abilities of an individual. Adaptive technology is something that makes accessing content better for everyone.

Students should try to:

Embrace opportunities to use new technology where you think it may help.

Try a variety of learning tools to better determine which work best for you.

Get support with tools early on to have the best impact on your academic success.

Adaptive Technology does not always have to be listed as an accommodation to be helpful during study periods. (i.e., Read&Write, Grammarly, Mind Mapping tools)
Apps and tools that may be beneficial for you to explore further, based on your individual learning requirements.
Best Free Note Taking Support Tool

**OneNote** is included in your Nipissing Student MS 365 subscription, at no cost.

A digital note-taking app that provides a single place for keeping all your notes, research, plans, and information.

Essentially, it is a digital notebook available anytime, anywhere. It can be accessed from anywhere using OneNote Online, or from apps on several devices, including Windows, Mac, iPhone, iPad, and Android.

OneNote can read text from images and convert images to typed text.

[www.onenote.com](http://www.onenote.com)

You are always welcome to book a meeting with me to get more familiar with OneNote or ask questions.
Mind Mapping or Brainstorming Tools

**The Invision App** is an excellent tool for brainstorming and concept mapping ideas.

[www.invisionapp.com](http://www.invisionapp.com)

**Mindly** helps eliminate all unnecessary clutter and helps organize ideas. It uses the power of association to create concepts.

Read and Write is a literacy toolbar available to all students, whether you are registered with SAS or not. You can find the link to download Read&Write from the SAS website [www.nipissingu.ca/sas](http://www.nipissingu.ca/sas).

There are multiple versions and extensions of Read&Write.

When on a browser like Chrome you are best to use the Chrome extension.

If viewing PDF’s that are saved on your device the Windows version would be preferred.

It can take some time to become familiar with the toolbar, but it does offer some great tools.

You are always welcome to book a meeting with me to get more familiar with Read&Write or ask questions.
Otter. ai uses recordings to produce real-time captions and notes for in-person and virtual lectures, classes, or meetings. In virtual sessions, it automatically captures lecture slides and adds them to the notes to keep details with full context.

The free version has limited features.
Free option or paid subscription available.

Grammarly acts as your collaboration partner in every stage of the writing process, helping you brainstorm initial ideas, format citations accurately, and more so you submit your best work with integrity.

Adjust your writing in just a click
Evaluate your writing and take your sentences to the next level in a few clicks.

Insight Timer is the only app you need to build healthy habits and create a well-being routine that works for you. And it's free.

www.insighttimer.com/individuals

Don’t forget to balance out your long study sessions with some mindfulness breaks.
I wish you all the best in your academic success!

Contact me if you would like to schedule a meeting to discuss anything included here in more detail:
