

## Curriculum 3 Course Requirements Checklist

This checklist applies to students following the current degree requirements. If NSGD 2256 appears in your program requirements or you have completed it, you should use this checklist.

### Instructions:

- Mark courses as complete by selecting the check-box in the Complete column.
- NSGD courses require a minimum final grade of 60%. Any grade below 60% means the requirement is not met.
- All other courses require a minimum final grade of 50%.
- Review your Unofficial Transcript on WebAdvisor to see a list of completed courses and to confirm transfer credits (WebAdvisor → Student Menu → Academic Profile → Unofficial Transcript).
- Transfer credits—except NSGD 9235 and core requirements—may be used toward electives.
- Click on any course code to review its description and requisites. This is an essential first step when planning your courses.
- Clinical courses require advance planning and clinical clearance. The Nursing Program coordinates this process. Clinical courses include: NSGD 3706, NSGD 3707, NSGD 4706, NSGD 4704.
- Note: the colour coordinated courses indicate the courses are corequisites and must be taken at the same time.

RPN to BSCN (120 credits)		
Course	Cr.	Complete
Transfer NSGD-9235	30	✓
ACAD 1601	3	
NSGD 2147 (60%)	3	
NSGD 2216 (60%)	3	
BIOL 1011	3	
NSGD 2256 (60%)	3	
NSGD 3006 (60%)	3
