FIRST AID

Got a paper cut? Fear not! Bandages and trained staff are here!

In recognition of World First Aid Day on September 9, we thought it best to provide you with an overview of Nipissing's first-aid processes:

OUR FIRST-AID LEADERS

- Nipissing has dozens of trained employees able to assist in providing first aid!
- You can identify a designated first-aider in (or near) your department using the lists posted at any Campus Health & Safety Board.
- Alternatively, you can visit the "Risk Management" page on our Health & Safety website to access the same list digitally.
- If you are simply looking for a finger bandage or you experienced an incident requiring first aid, reach out to your nearest first-aider!

BOXES AND KITS

- Nipissing has Automated External Defibrillators (AEDs) and first-aid kits placed throughout the university for everyone's safety.
- The same physical and digital lists mentioned in the last section also provides all AED and first-aid kit locations across campus.
- If you need to open a first-aid kit to access its supplies, it may be best to seek out the nearest first-aider; be prepared to report the incident.

REPORTING 101

- If you or anyone else has experienced or witnessed an incident, especially one requiring first aid, please submit an Injury and Incident Reporting e-Form within 24 hours of the incident taking place.
- Visit the "Risk Management" page on our Health & Safety website to access the e-form and more information on incident reporting.

WORKER'S RIGHTS

KNOW

You have the right to know about health and safety matters in the workplace.

PARTICIPATE

You have the right to participate in conversations and decisions that could affect your health and safety in the workplace.

REFUSE

You have the right to refuse work that could affect your health and safety in the workplace.
